*DISCHARGES*

When scheduling discharges please provide the following information to help ensure discharges are properly scheduled:

- Unit contact number where the patient will be located.
- Proper Level of Service. If a patient can ambulate on their own (Ambulatory) or with assistance (AMAV) please request **Amav** as the level of service for the discharge. This will allow the proper resources to be dispatched in order to accommodate the appropriate levels of service.
- Please note that at any time during the 3 hour window a transportation provider may be available to accommodate your request. Make sure that the patient is ready to be discharged prior to contacting LogistiCare.
